Does Your Culture Support Your Strategy?

Organization Vitality Overview

The “spider web” diagram quickly illustrates the strengths and weaknesses as seen by employees. The detailed results are provided so that an analysis of the major contributory causes for the assessment can easily be conducted. Finally, verbatim responses for each section provide insight into the emotional opinions of the respondents and gathers improvement suggestions.

Understanding these facets is very important for managers and leaders if they are to improve the capabilities and competitive skill sets of their staff and business operating units, and overall organizational vitality.

Culture *can* be measured and used in relation to your strategy but you have to know how to do it and how to use the information to your advantage.
